

Name: Shandeep Singh
Running For: Sophomore Class
Secretary

I am Indian (don't worry I'm an American citizen) and my name is Shandeep Singh! I am from Plainfield, IN and am a double major in Political Science/Biology in the Pre-Med program here at Butler. I don't ever actually run on a treadmill or around a track very often, but I definitely want to run to be the Sophomore Class Secretary!! I want to plan great activities for the sophomore class and keep records for the class. I want to exemplify the Butler Way to the student body of the Sophomore Class. For me, the Butler Way demands commitment, denies selfishness and accepts reality (Wikipedia). I don't know if I should've put that, but it is exactly what the Butler way is. Commitment to one's education and helping others is what separates Butler Students from other college students. I believe I can offer all my experience, leadership skills, and communication skills to further enhance the Butler Way for the Sophomore Class. My goals for the secretary position are to offer more activities in class at a local and more personal situation. I hope you panchod elect me for your secretary of United States of America oops I meant Butler!
